

RoadMap for 2021 v1.4

Covir Back on Bitforex & SWAP

After a Successful Swap, Covir will be back on BitForex (ERC-20 Contract) with :
BTC/CVR
ETH/CVR

- + Updated Investors & Users Accounts (SWAP)
- + Update Covir Platform
- + Add Claim CVR & Withdraw Function
- + Buy Function will be back (According to the price quoted on Bitforex)

BOUNTY & BLOCKCHAIN

For some months, many bounty hunters have been promoting Covir Project, but payments are still due to this day. All the information remains under locked and the payments will start at the beginning of the second quarter of the year.

- + Traceability of Data with ours Robots/Biosafety
- + Data Analysis
- + Wifi Incorporation and Blockchain Test

SHOP WITH CVR

Integration with a large number of partners of the parent company, The first CVR Payment system to allow the acquisition of product related to disinfection / decontamination

Development of a Credit Method for the launch of disinfection with our Customers (More details on [cloud biosafety](#))

Q1 2021

Q2 2021

Q2 2021

Q3 2021

Q4 2021

Q4 2021-2022

DEVELOPMENT

Covir Project will enter in contact with "MetaMask" and some other Strong Parters to integrate the CVR Token

- + Integration of the Stacking CVR (*%/week/month/year) - Paid in USDT

2020 REPORTED

Epidemic events have delayed many of our developments, which we are pursuing here.

- + Implementation Of Voting System
- + AMA Live (Camera) with a strong partner + First Major Event
- + Request & Zendesk Implementation

EXCHANGE

This year's development will allow us to highlight a number of assets on the project. Our priority also remains the expansion and scope of the project. Thus, to make it known to as many people as possible.

Binance, Okex, Kucoin, are exchanges that remain on our priority list just after BitForex.
